

2-IN-1 TECHNOLOGY. WELCOME TO VIDEO AND TELEMATICS COMBINED.

The AP1 delivers video and telematics in an affordable, plug-and-play device with ADAS.

ADAS TECHNOLOGY WITH DRIVER ALERTS

Lane Departure Warning

Forward Collision Warning

Headway Monitoring Warning (Tailgating)

KEY FEATURES AND BENEFITS

- 2-in-1 device works with an existing telematics black box or without
- Focused feature set for safety improvement and lightning-fast installation at an affordable price
- Intuitive design requires very little fleet manager or driver training
- Most critical Advanced Driver Assistance Systems (ADAS) notifications focused on supporting, not annoying, your drivers
- Fail-safe GPS/cellular functionality ensures event video is uploaded to the cloud from anywhere — even in a crash
- Opportunity to consolidate data costs under one plan
